

## ROUND 1- ORCC MAY 26, 2007

Salut a tous,

A quick note to let you know we held the first of 4 HLG events across Montreal, Ottawa and the greater Toronto area for the 2007 season.

We had 6 participants. Not a whole lot, but all had fun with Ivan folded in two several times and laughing, Mark using his colorful language and so on. Biz was able to attest that my shorts were in pristine condition, following a quick moon triggered by his challenging nature.

We had 2 participants from around Montreal, 1 from the Toronto area and the 3 last from the Ottawa area.

With his first participation, Gordon Williams managed to fly the whole 8 rounds and came back with a better trimmed DLG, in one piece, svp, a much darker tan and somehow, that grin on his face. Good job Gord!

Of note, Geatan Landreville drove all the way from St-Jerome, QC, to see what this dancing was all about. After the event, I lent him my older DLG for him to get a taste. (Ca mord a St-Jerome le DLG?)

The day was mostly sunny, perfect temperature and conditions that were not always easy while we chased thermals down the field. Some got on the bus, others kept running.

We used the latest version of spreadsheets for scoring, timing and calling out groups. Worked well with a couple of caviats - more on that later, Pascal. Thanks to Mark's PA system, the automatic calling of pilots was very efficient and heard at the far end of the used area.

OK, results?

Le requin didn't have one of his best days.

(En passant, les marchettes seront permises a l'avenir, mon Biz)

Crazy Ivan left for home with top scores, but very closely followed by yours truly.

I'm very happy with my results as Ivan is a very good pilot with a superb DLG (read \$\$\$) in his hands. Complete results in the attached PDF.

For the French version, I will let Mark practice his French...

Results and pictures will be added on the official site by him @ < <http://www.mgertech.com/HLG-SERIES/MAIN.htm> > soon. I'm off to bed now.

Bonne nuit a tous et on se retrouve au C2VM, a Ste-Julie, le 7 juillet.  
Pour la revenge du requin and more fun.

Tourlou!

LD
